Development

Initial Teacher Training

- Strategic responsibility for school engagement across our regions
- Opportunity for Hubs, Trusts, schools to work together for recruitment and initial teacher training
- Collaborative approaches to recruitment to support training pathways into the profession

ITT is intended to support and benefit everyone

Schools

Recruit the well-trained teachers that schools need

Teachers

Help teachers fulfil their potential and feel supported in their role from the very start of their career

Workforce

Pipeline of new teachers to the profession

Pupils

Ensure excellent teachers for every child

Teacher training is not possible without school placements.

We know that many schools view supporting the training of the next generation of teachers as part of their professional purpose. As well as supporting their own school recruitment needs, by providing school placements, schools enable the pipeline of new teachers to the profession.
