Results in 2017

Our Progress 8 score for all Year 11 students in 2017 was -0.12 with the upper confidence interval above 0. For disadvantaged students it was -0.19 which was a huge improvement compared to 2016. 59% of our students achieved both at least a grade 4 in maths and English, with significantly higher outcomes in both maths and English individually. We also saw very strong results in a number of other subject including dance, drama, media PE and product design.

In the Sixth Form we again achieved very pleasing results continuing the successes we have had over a number of years. We had excellent results in a wide range of A Level subjects including English literature, maths, physics, geography and economics. There was real success across the whole range of vocational subjects offered too with many top grades achieved in business, ICT, health and social care and art. 65% of our Year 13 students chose university or Advanced Level apprenticeships.

Results in 2016

55% of our Year 11 students achieved an A*-C pass in both maths and English, with 81% of all English grades being graded at grade C and above. A significant number of subjects performed very well including Spanish, art, photography, product design, dance and PE.

In our A Level and vocational examinations, 76% of all passes were at A*-B or Distinction*/Distinction. The average grade across all vocational subjects was Distinction* and our student pass rate remained at 100%. At A Level, 80% of grades were at grade C or above. These results represent the highest ever achieved with a number of subjects breaking previous records including English Literature and sociology. Students won places at good universities including UCL, Kings and Loughborough as well as higher level apprenticeships at RBS and Ernst & Young.
